

This is a Grade School in Bela Crkva as it is today in 2018.

What is so special about this school?

(2nd Draft 6/9/2018)

My Grandfather, Jakab FOGTER (Jacob Feckter) attended 1st grade at this school in 1884, I suspect.

This same school, basically the same as it was, is still being used today in 2018,

That is now, 184 years ago after he first attended classes.

We were always told, when growing up, that the city he came from was called "Weisskirchen" in Austria Hungry (German) and now it is call Bela Crkva in Serbia. Both language variations are for the same name "White Church" for which the city was first named when it was founded in 1717.

During a recent trip to Serbia, in search of family history, my cousin Marcia Tiemeyer and her husband Don along with their nephew Phil Tiemeyer, Associate Professor or History at Kansas State in Manhattan Kansas, provide this information we now possess.

Jacob's brother John, who was 5 years older, also attended this school. His sister Barbara was 1 year older and probably would have also attended this school. At this time we do not have any records for Barbara to verify her attendance, but John's 6th grade record we have. Now John's name was written as "Janos" Fogter (birth & christening name is recorded as Johann FOCHTER).

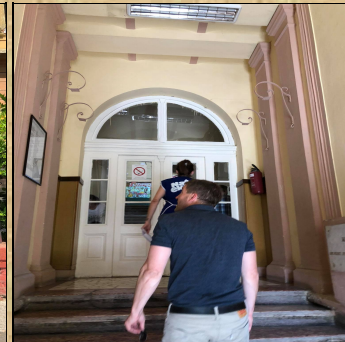

A local resident outside the school, who overheard Phil and others talking, told Phil that this building has not changed much from the time it was built, just the addition of paneling on the walls and other cosmetic updates. She then asked if they would like to see the inside of the school and offered to show them.

Front of School and local person who assisted with tour of the school and information

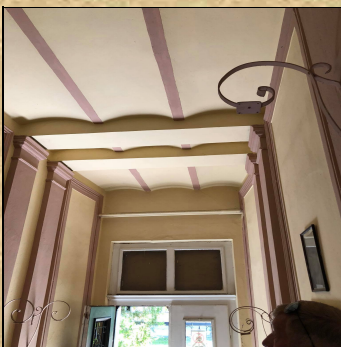

Coming up and through the front entrance

Inner vestibule with school information

Looking back towards the street from inside the vestibule

As you travel through the front entrance to the school and then down the hallways to a classroom of today and you can still see the old structure that must have been present during my Grandparents days in school. Also the above picture shows an Old Map of the City that they had, but the date of of the drawing is not in the picture that we have here.

From the Grade Book of my Grandfathers 1st Grade Class we have some pictures of the data recorded. Sure wish I could read this!
 My Cousin Marcia Tiemeyer who took these pictures on her trip in search of family history may bring more light on these recordings. She did comment on our Grandfathers schooling days in that:
 "Grampa wasn't a stellar student, only scored a 1 in moral behavior, which means he couldn't sit still."
 "1 was lowest and his best grade was a 3 in physical ed."
 "He didn't complete 4th grade and we are speculating that he left school to work with his father who was a carpenter."
